The S.O.3 is the perfect ad-lib feeder for nursing sows.

The dispenser head ensures that the pigs are not in contact with the feed before it is in the trough thus preventing clogging of the feeder.

Ad lib feeding ensures constantly fresh feed, increasing milk yields, calm behaviour, and improved welfare among piglets.

The Domino S.O.3 is also noted for the following:

- Strong materials, PE plastics and stainless steel
- No sharp edges that can harm the animals
- Easy to install in existing farrowing pens
- Supplied fully assembled and ready for installation
- Multiple feed amount settings ensuring minimum feed waste
